

STOP THE SUFFERING END LONG-HAUL LIVE EXPORTS

FROM FARM TO PORT:

AUSTRALIAN SHEEP SPEND...

IN CROWDED TRUCKS

IN ASSEMBLY SHEDS OR FEEDLOTS

ON SHIP WAITING IN DOCK

DURING LONG-HAUL EXPORT:

AUSTRALIAN SHEEP EXPERIENCE...

LONG VOYAGES

SHEEP CAN BE CONFINED FOR OVER 30 DAYS IN CRAMPED CONDITIONS

Sheep endure weeks at sea, multiple ports and days of loading and unloading

OVERCROWDING

LACK OF SPACE PREVENTS ANIMALS FROM LYING DOWN AT THE SAME TIME

Fatigued animals often end up lying on top of each other due to cramped conditions

HIGH MORTALITY

AVERAGE ON-BOARD MORTALITY RATES FOR SHEEP ARE 4X HIGHER THAN ON FARM

More than 2% of sheep must die before an investigation is required

HEAT STRESS

LIVESTOCK ENDURE EXTREME TEMPERATURE HIKES FROM 6°C TO 46°C

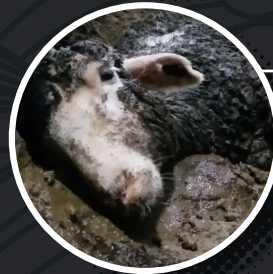

In September 2013, heat stress on a journey to Qatar claimed over 4,000 sheep in a single day

LACK OF BEDDING

LIVESTOCK LIE IN THEIR OWN WASTE

For sheep, this is the only 'bedding' they have. Painful injuries can result from lying on metal floors for weeks

CANNOT ACCESS FOOD AND WATER

OVERCROWDING CAN PREVENT SOME SHEEP FROM REACHING FOOD AND WATER

Others can suffer fatal salmonella infections, pneumonia, conjunctivitis or exposure to high levels of ammonia

AUSTRALIAN SHEEP SUFFER:

WHEN EXPORTED OVERSEAS...

Australian sheep are subjected to cruelty and slaughter practices that are unacceptable by Australian standards **ESCAS does not protect our animals from these abuses**

PHYSICAL ABUSE

UNSTUNNED SLAUGHTER

STREET SLAUGHTER
