## RSPCA Australia National Statistics 1999-2000

The RSPCA receives thousands of animals every year in every State and Territory in Australia. Annual statistics on the numbers of animals received, reclaimed or rehomed are compiled on a national basis by RSPCA Australia. The following statistics cover the 1999 to 2000 financial year and give details on the receipt and placement of animals by each State and Territory RSPCA during that period.

- The RSPCA received 138,607 animals from across Australia, including 67,204 dogs and 50,485 cats.
- As well as receiving large numbers of dogs and cats, the RSPCA took in 220,918 other animals. These included horses, livestock, and wildlife, including some more unusual animals such as bandicoots, echidnas, blue-tongue lizards, sea lions, ferrets, and a wide variety of native birds.
- This year saw a slight increase in the rehoming rate for cats. 3.2% of cats coming into RSPCA care were reclaimed by their owners compared with 2.3% for last year. The reclaiming rate for dogs rose for the second year running from 20.4% in 1998-9 to 22.8% in 1999-2000.
- The RSPCA found new homes for 21,415 dogs and 15,162 cats. The percentage of cats rehomed by the RSPCA rose markedly this year to 30.0% of cats received compared with 25.6% last year.
- RSPCA Inspectors carried out 47,989 cruelty investigations, and 2,153 routine inspections in 1999-2000.
- Over 50% of all the cruelty complaints investigated by the RSPCA across Australia related to cruelty to dogs (26,907 complaints). These investigations resulted in over 150 prosecutions for cruelty to dogs.
- RSPCA inspectors visited a wide range of sites to examine animal welfare standards including saleyards, livestock vessels, feedlots, abattoirs, zoos, pet shops, riding schools and racetracks.
